# GP Palliative Care Toolkit

**An Active Learning Module on symptom management, medications and end-of-life care**

This event is a valuable opportunity to improve your knowledge and update your skills in the management and care of palliative care patients.

## Agenda

- How to integrate services offered by Specialist Palliative Care Providers into the clinical management of palliative care patients
- Evidence-based clinical management strategies to ensure safe and effective symptom management and end of life care for palliative care patients
- Changes to the therapeutic guidelines for palliative care
- Management of common emergencies in palliative care
