# Spirometry Training Course

## For GPs and practice nurses

*Brought to you by the National Asthma Council Australia as part of the Asthma Best Practice for Health Professionals Program*

The Spirometry Training Course provides comprehensive training in the application, measurement and interpretation of expiratory spirometry in general practice. The interactive workshop includes hands-on components to allow participants to apply their new knowledge in a practical setting.

### Presenters:

**Danny Brazzale**, Senior respiratory scientist, The Austin Hospital

**Nory Del Colle**, Respiratory scientist, Head of Respiratory Laboratory Services, Eastern Health

### Demonstrator:

**Bernadette Flannigan**, Practice Nurse and Asthma Educator, National Asthma Council

*Participants will be required to complete pre-reading and answer questions prior to the training. Details will be sent after registration.*

*Material will be sent upon registration.*

### Registrations:

This event is limited to those who work in general practices in the Eastern Melbourne PHN catchment. Registration numbers are capped at 2 attendees per practice.
