

Telehealth – introducing video visits with your patients

This webinar hosted by Healthdirect will outline the foundations of telehealth, how it can be implemented in your practice, how to navigate risks and barriers and set-up workflows.

Guest speakers

Jude Cobb – Customer Engagement Officer, Healthdirect

Jodi Earle – Customer Support, Healthdirect

Also an opportunity to hear from **Dr Arthur Zulman, GP** from Macedon Medical Centre who has conducted most of his telehealth consultations through video rather than telephone. Dr Zulman has found telehealth via video easy to use for himself and his patients.

Learning outcomes

- an overview of Healthdirect Video Call and its benefits
- how to create an account
- a demo of the platform
- integrating video call into GP practice workflow
