

Healthdirect Video Call

What equipment do you need to make a video call?

Watch the video:

<https://help.vcc.healthdirect.org.au/conductavideocall/whatyouneedtomakeavideocall>

Get ready to make video calls

Make sure that you use one of the following web browsers:

-  Google Chrome Version 72+ (Windows, Android, MacOS)
-  Apple Safari Version 12+ (MacOS, iOS)
-  Firefox Version 68+ (Windows, Android)
-  Microsoft Edge Version 79+ (Windows, MacOS)
Microsoft Edge Version 44+ (Android)

Computer users will need

- A **web camera** - built-in or attached using a USB port
- A **microphone** - usually built in to most laptops and external webcams
- **Speakers and headsets** - speakers are usually built into most laptops, but not necessarily into external webcams
- *(Recommended)* A **second monitor** - so that providers can display the video consultation on one monitor and patient information on the other

Everyone will need

- A **reliable connection to the internet** - if you can watch a video online, you can make a video call
- A **private, well-lit area** - where you will not be disturbed during the consultation
- An **internet connection** - you need a minimum of 350Kbps bandwidth per video stream
Use [speedtest.net](https://www.speedtest.net) to make sure you have enough bandwidth

Make a test call

Run a [pre-call test](#) to make sure your equipment is set up and working correctly.

The Video Call test will check your network connectivity and device setup. If there are any issues, you will be prompted to troubleshoot the relevant parts.

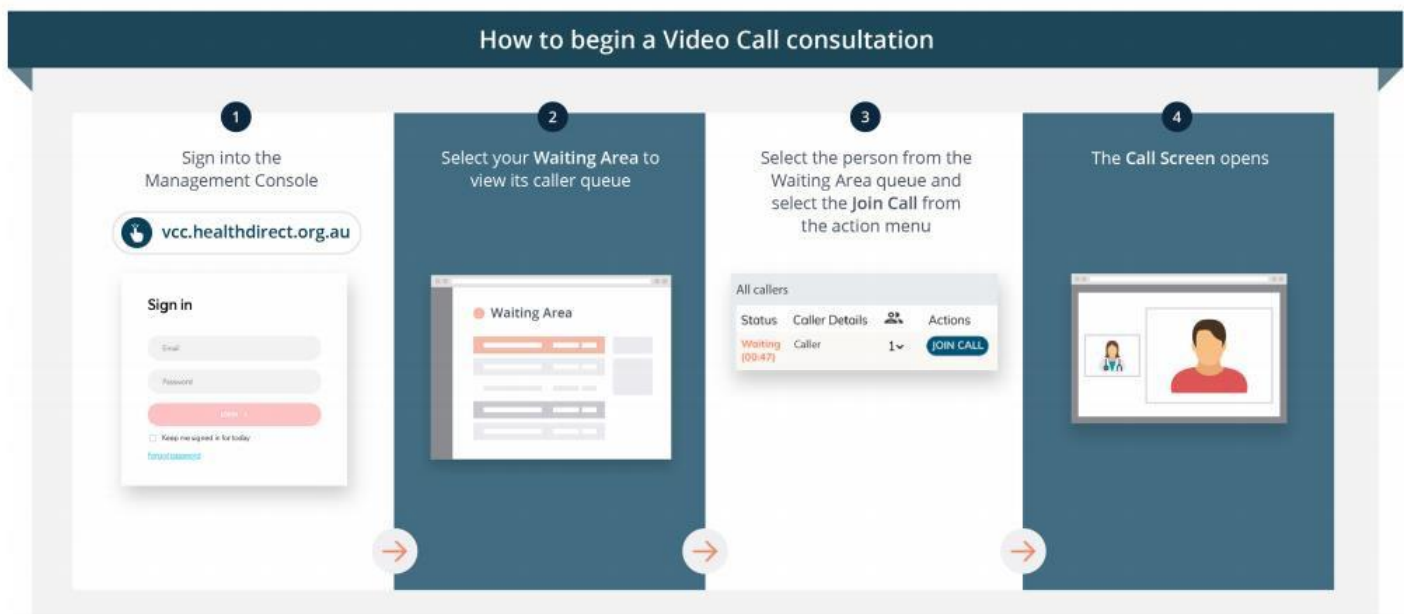

Join a Video Call and see your patient - (For Clinicians)

Information to provide to your patients

If your website is not yet ready, give your patients the Waiting Area URL, found under Clinic Settings in your Waiting Area dashboard page.

The screenshot shows a dashboard for 'Acme Clinical service'. On the left, under 'All Callers', it states 'There are currently no waiting or active callers in your waiting area.' On the right, the 'Clinic Settings' panel includes a 'TEST CALL' button, 'Waiting Area Alerts' (with a dropdown arrow), 'Waiting Area Hours' (with a dropdown arrow), and 'Waiting Area URL'. The 'Waiting Area URL' section is highlighted with a red box and contains the text 'Give this URL to callers to have them join this waiting area' and the URL 'https://acmehealth.vcc.uat.healthdirect.org.au/join' with a 'COPY' button.

Click on **Copy** to allow for easy copying and pasting into an email message or other communication.

Patient/Caller: Step by Step Video Call Guide

The guide is titled 'How to begin a Video Call consultation' and consists of four numbered steps:

- 1** Go to the entry point on the service's website and click the Start Video Call icon. The screenshot shows a 'Video Call Setup' page for 'Western Hills Orthopaedics' with a 'Start a video call' button.
- 2** Enter name and phone number when prompted. The screenshot shows a form with fields for 'Name' and 'Phone Number'.
- 3** Enter the clinic's online Waiting Area. The screenshot shows a 'Waiting Area' page for 'Western Hills Orthopaedics' with a 'You have joined the call queue' message and a 'Leave the waiting area queue' button.
- 4** Clinician arrives and the consultation proceeds. The screenshot shows a video call in progress with a clinician and a patient.
