

## Common vulval conditions: all that itches is not thrush

A FREE webinar for health professionals

Thurs Feb 1st 2018

7.30-9.00pm (AEDT)

### Panel:

**Dr Karen Berzins**

Sexual Health Physician

**Dr Tanja Bohl**

Jean Hailes Dermatologist

**Dr Kathryn Cook**

Gynaecologist & Sexual Health  
Physician

**Dr Elizabeth Farrell**

Jean Hailes Gynaecologist

### This webinar will:

- Use case studies to explore a range of important issues relating to the management of common vulval conditions
- Include examination and consultation essentials; investigation and referral; and management options.

If you cannot attend on the night, please register anyway as we will provide a recording of the webinar to all registrants after the event.

### Learning outcomes

By the end of this activity participants will be able to:

1. Identify the most common vulval conditions seen across the reproductive lifespan.
2. Manage common vulval conditions and discuss appropriate evidence based treatment options with patients.
3. Outline the risk factors for malignancy and the need for regular monitoring.
4. Implement a system to ensure those at high risk are referred for further investigation or to a specialist.

### Course Accreditation

Participants are eligible for:  
RACGP – 3 Category 2 QI&CPD points  
RACGP activity number 120079
