

Clinical Guidelines Webcasts

The two eagerly awaited Australian clinical guidelines for the diagnosis and management of heart failure and atrial fibrillation are here!

Recently launched at 66th annual CSANZ conference, each guideline was developed by the National Heart Foundation of Australia and Cardiac Society of Australia and New Zealand to assist Australian clinicians prevent, diagnose and manage these common heart conditions.

Each live webcast offers health professionals a rare opportunity to engage with the expert authors of the Guidelines. Chaired by award-winning health journalist Dr Norman Swan, the webcasts will provide a greater understanding of the guidelines and how to apply them in practice for a range of healthcare professions.
