

Making Telehealth devices ready to use

To ensure quick access, here are some suggested resources to ensure are pre-saved to all telehealth enabled devices.

<p>Save your local Residential in Reach referral page to bookmarks and save phone number to nurse phones.</p>	<p>Save your local Specialist Palliative Care referral page.</p>	<p>Ensure a central email access is enabled on all devices, and to accessible to all nursing and care staff.</p>
<p>Save the Medical support checklist to all devices for bedside use.</p>	<p>Family fact sheet and translated information can be found here</p>	<p>Bookmark your preferred Translation service referral page.</p>
<p>Ensure VVED is bookmarked on all devices. Ensure VVED contacts are saved to all phones.</p> <p>VVED ANUM - 0459 847 364 VVED Clerical - 03 9485 9070</p>	<p>Save Medical referral options for decision making to devices or as save as wall paper on devices.</p>	<p>Synch devices with your resident management system to enable access on devices.</p>
<p>Synch devices with your electronic med management system.</p>	<p>Save the VVED ANUM and clerical numbers to all nurses' phones.</p>	<p>Save the Palliative Care Advice Service on nurse phones. PCAS - 1800 360 000</p>
<p>If you use Imprest medication management, ensure a list of medication stock is available to nursing staff.</p>	<p>Ensure individual resident care plans are easily accessible, including after-hours action plans.</p>	<p>Ensure the site after-hours contact list is accessible and up to date.</p>
