

GP Aged Care Incentive (GPACI) MBS User Guide

National MyMedicare PHN
Implementation Program

phn
COOPERATIVE
An Australian Government Initiative

The General Practice in Aged Care Incentive (GPACI) provides incentive payments to general practices and general practitioners for delivering regular visits and care planning to permanent residents living in residential aged care. The new incentive aims to strengthen and formalise relationships between residents and their primary care provider, or general practice.

The purpose of this resource is to support General Practices to plan their delivery of care for the GPACI and provide examples of how to use MBS items to meet the requirements of this incentive. **To use the guide in your practice, simply select the Sample Schedule (pg. 3 – 8) and Example Annual Cycle billing scenario (pg. 11 –15) that best suits your practice team and setting.**

This resource demonstrates the potential use of MBS items related to the GPACI. For a full explanation of each MBS item please refer to MBS online. <https://www.mbsonline.gov.au/>. Note that MBS items in the examples outlined must be billed by providers whose provider numbers are associated with the General Practice to count toward GPACI service requirements. Estimated billing examples on pg. 10 – 14 do not include triple bulk billing and practices are encouraged to add this for their MMM area as applicable. An example of triple bulk billing is provided on pg. 15 for illustrative purposes for an MMM 4 practice.

Disclaimer: This resource outlines some examples of how General Practice can utilise GPACI MBS Items and Care to enable the incentive payments under the program, General Practices are advised that this resource does not cover all scenarios or scheduling of MBS items to meet GPACI service payments. General Practices or Aboriginal Community Controlled Health Organisations should consider their unique model of care, team structure and business model when planning or considering the GPACI. General Practices are encouraged to refer to the GPACI Guidelines on DoHAC website for more information: <https://www.health.gov.au/our-work/gpaci>

DEFINITIONS

Responsible Provider = Medical practitioner who holds an eligible specialty code, as outlined in Appendix 10.2, and who for the purposes of the General Practice in Aged Care Incentive are responsible for coordinating the delivery of eligible services to an eligible patient

Prescribed Medical Practitioner = previously non vocationally registered/ OMPS

VR = Vocationally Registered General Practitioner

Other Important Notes about GP ACI

Care Planning Items can be claimed on the same day or on separate visits as long as it meets the GPACI criteria of TWO Care Planning Items per annum.

MBS 731 is required to be able to bill Practice nurse/ Aboriginal &/or Torres Strait Islander Health Practitioner Item MBS 10997 and required to trigger allied health appointments (chronic disease management items for Podiatry, Dietitian, Physio, Ex Phys, Occupational Therapy, etc). This GPACI MBS User Guide Strongly recommends practitioners claim this item within the first quarter to maximise the multidisciplinary team function of GPACI.

To be eligible for the 4th quarter payment a total of 8 regular visits need to be completed across 12 months (Not required to be delivered in separate calendar months). If a GP misses a quarter, they will need to make up the missed visit at another point in the 12-month period.

On the following pages are some example annual billing/claiming cycles using GPACI MBS items. Note: there are many ways a General Practice may structure the care provided to an aged care resident. These are examples to provide an idea of how visits could be placed, indicative billing amounts (noting if claiming longer consults or after hours items the billed amount is higher).

Example Annual Cycle estimated billing + Triple Bulk Billing Incentive included. MMM 4 location example (Responsible Provider Only)

Based on page 12 Annual Cycle example

Annual Billed Amount in this example: \$1540.30 + incentive payment of \$300 (Responsible GP incentive) + \$130 (practice incentive) = \$1970.30 (noting incentive paid quarterly)

Triple bulk billing amount for an MMM4

MBS 75873 claimed x 4 = $\$40.55 \times 4 = \162.20
MBS 75882 (telehealth) claimed x 4 = $\$40.55 \times 4 = \162.20

Total annual billed amount = $\$1970.30 + \$162.20 + \$162.20 = \2294.70

Other Important Information

Noting that the practitioner may visit the patient more frequently in the year for additional care needs to bill for follow up telehealth appointment, or bill for longer appointment items depending on patient's individual care needs, therefore the billed amount for the patient may be more or less - example only.

Also note this example is for MMM4 - Bulk Billing Incentive amounts differ between MMM areas. This resource has represented one example to ensure practitioners consider the inclusion of Triple Bulk Billing when using this User Guide.

Bulk Billing Incentive items reflect a \$ amount that already reflects the tripling of this item in MBS online, no need to carry out additional sums to triple these items.
