

Endometriosis & Pelvic Pain GP Clinics

Are you looking to receive affordable, safe and confidential advice and treatment to assist you in your experience with endometriosis and pelvic pain?

The Each Ringwood East and Epping Evoca Endometriosis & Pelvic Pain Clinics are working hard to reduce diagnostic delays and to ensure early access to interventions, care, treatment options, and referral services for individuals within the community experiencing endometriosis and pelvic pain.

These clinics are led by experienced General Practitioners (GPs) and supported by a skilled multidisciplinary team, including nurses and allied health professionals (i.e. dietitians, women's health physiotherapists and counsellors).

Services offered:

- Medical consultations
- Nursing consultations
- Allied health consultations
- Diagnostic investigations
- Referral pathways to specialist clinics and allied health providers

Inclusion criteria:

- Female/Assigned female at birth
- Have a diagnosis of endometriosis, or seeking a diagnosis for pelvic pain

How can I book in with a clinic?

- **Important note - You do not need a GP referral form to access the clinics.**
- **Call your chosen clinic to discuss booking an appointment.**
