POLAR Walkthrough – Identify patients at risk of Diabetes who may be eligible for referral to the Life Program (Victoria only).

Step 1

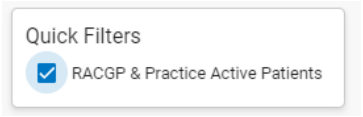

Open POLAR and from Reports Select Clinic Summary Report

Polarexplorer.org.au/login

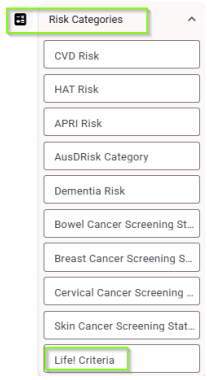

Step 2

Select the Quick Filter RACGP& Practice Active patients' shortcut.

Step 3

Select the Risk Categories filter from the filters on the left hand side. Then select Life Criteria.

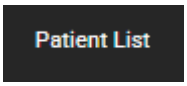

Step 4

For this exercise we will choose Life Criteria A (AUSDRISK) then confirm the selection. The practice may choose to use one of the other criterion for other QI Activities.

Step 5

Go to Patient list at the top right hand side and export to excel.

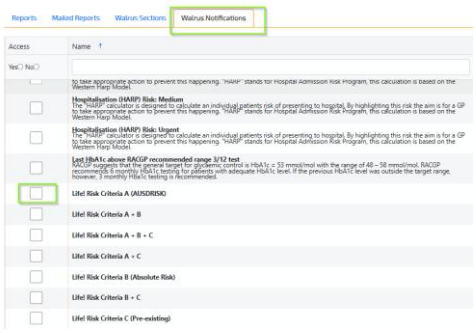

Step 6

If the practice has Walrus Tool installed the prompt can be set up in walrus to prompt for patients eligible for Life program referral. See EMPHN website: Under the users profile select the Life Program Criteria A or all or others if you wish.
